TECHNICAL SKILLS:

Scripting Languages : JavaScript, Typescript

Frameworks : Angular

Web Technologies : HTML, CSS

Back End : Node js, Express js

Database : MongoDB

COLLEGE PROJECT DETAILS:

❖ VEHICLE ALERTING SYSTEM:

The aim of the project is the Safe Road Travelling and emergency alerting when any accident occurred. So, we came up with a solution that in case of any accident of vehicles then the system turns on reads the position of the vehicle, and GPS location of the vehicle, and through webcam it shoots the video and captures the image of the victim for showing the exact situation of the victim. Then it will send the GPS location, video and photo through the given Email and also it will send message and give call to the given number.

TRAINING PROJECT DETAILS:

Based on my technical skills I developed a small e-commerce web page. On the web page, I have created different modules like login, sign-in, cart, product, etc. All modules are integrated with the main module of the system. It's similar to the E-Commerce web page only.
